

INTERNATIONAL CHILDREN'S CARE

"Working Around the World to Bring Orphans New Life"

Keep those motors runnin'!

Dear Supporter,

Imagine a van load of children stranded along the side of a busy road with engine failure or some other maintenance breakdown. You can help keep the children and staff safe from hazards and risks along the road by contributing to the Vehicle Repair Fund today.

Now, more than ever the children depend upon your kind-hearted generosity to keep them safe on the highways and to provide transportation for the supplies they need.

At this time, we have an urgent need for vehicle repairs. Several vehicles need engine servicing and new tires. All the vehicles have costs related to routine maintenance.

These vehicles serve the many transport needs of the children's villages.

Each children's village depends on several kinds of vehicles:

For example:

1. **A small van** to get necessary supplies. To take children to the clinic or hospital for treatment. To carry groups of children on outreach programs. And shuttle staff and children off-campus for various needs.
2. **A pick-up truck** for on-campus farm work, maintenance, and landscaping.
3. **A tractor** to support farm work and lawn mowing.
4. **A second car** for when the van is in use. Whose purpose would be to run errands, provide emergency transport, and cover special needs.
5. **A boat.** In the D.R. Congo, the children's village is located on an island. The staff and children have to travel by boat to and from the mainland to get food, supplies, and medical care.

There's more information on the back page -

The vehicles at our children's villages are well used. This vehicle repair fund helps keep these vehicles running properly. This fund has been depleted, and the children's safety and well-being are at risk.

If you are in a position to do so, please send your gift today to support the Vehicle Repair Fund.

On behalf of the children, thank you very much!

Brian Manley
Executive Vice President

P.S. The children will be safer with well-maintained vehicles. Thank you for helping to replenish the Vehicle Repair Fund.

"It's the side-bearing prenumbulator flange."
